

**FIRE CODE COMMITTEE  
MID-MONTH MEETING  
NOVEMBER 9<sup>TH</sup>, 2006**

Attendees	Absent
Rocque Yballa, Co-chair Rick Thornberry	Dan Najera, Co-chair Amber Anderson Steve April George Barnes Ian Harding Tom Harvey Ben Ho Ronny Keefer Bill Litchenberger

\*\*\* The Fire Code Committee met jointly with the Building Code Committee. Rick Thornberry from the Code Consortium was attending both committees.

1. Discussed annual reports for each committee. Dan and Rocque finished their report and forwarded it to their respective VP. VP Johnson has already accepted it and forwarded to President Guiliani.
2. Reviewed the status of the Fire Code and Building Code Committees in relation to the South. Consideration is being discussed on the need for both committees both North and South. Possible solution is that the South take Fire Code and the North take Building Code. This may improve participation across the board. Or not... Still in discussion.
3. A first draft of the Business Plan for the rewrite of Title 19 CCR is being completed. Dan & Rocque have provided joint input regarding its draft. Preliminary discussions with possible stakeholders have proved very positive.
4. Discussed the code hearing process in Orlando and debriefed success and delta's. Overall, communication and clearer direction seem to be the major focuses for change and improvement. Regardless, Equipment & Devices Committee will now be shown under Building Code rather than Fire Code for future organization charts.
5. Public Comment (formerly Challenges) under consideration for submission by the fire code committee are as follows: F11, F12, F33, F41, F42, F46, F52.

**NEXT MID MONTH MEETING – DECEMBER 7, 2006**
